Create a Robot

Problem: You must create a robot using the description below.

Steps to Solving the Problem:

1. Read the description of the robot.
2. Then, draw the robot using the description.

Robot Description:

- The robot has **one, big square head.**
- The robot has **two, big round eyes.**
- The robot has **one, small triangular nose.**
- The robot has **one, thin rectangular mouth.**
- The robot has **one, big rectangular body.**
- The robot has **two, short rectangular arms.**
- The robot has **two, small C-shaped, hands.**
- The robot has **two, big feet.**

Now, draw a picture of the robot.

3. Using any materials that you have handy, create the robot. Add 3 features or attributes of your own.

Solution: Upload a picture of your ROBOT creation to SEESAW by Friday, April 24th.
