

# Shape "Must Haves"

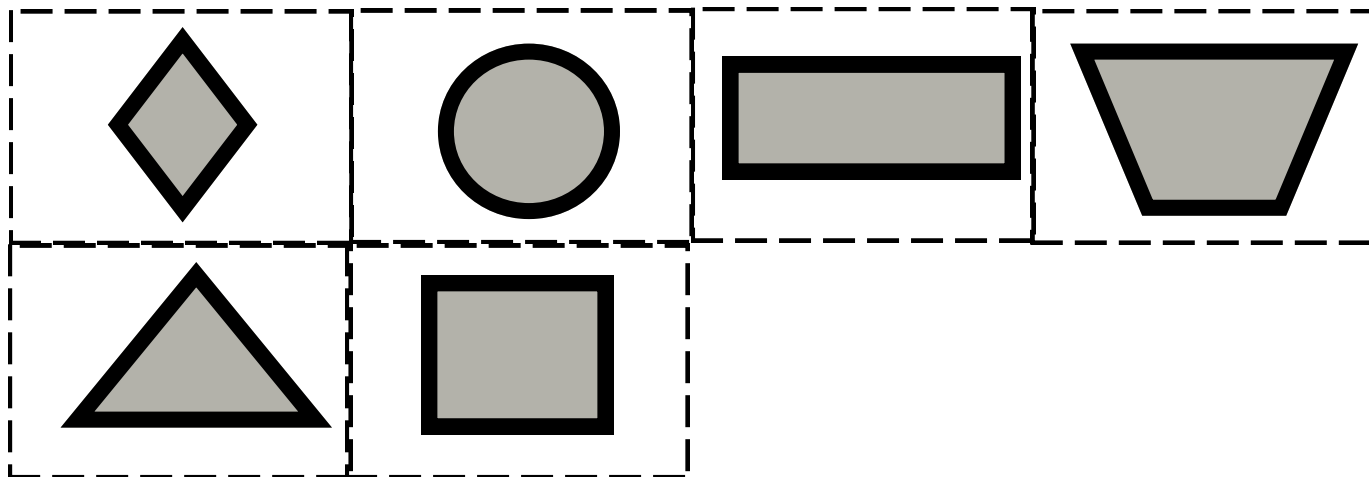

Directions: Match the shape picture and "must haves" with the correct shape name. Glue them down.

shape name	shape picture	shape "must haves"	
square			
rectangle			
rhombus			
trapezoid			
circle			
triangle			

Name.....

# Shape "Must Haves"

Cut out the shapes and the "must haves" then glue them on the chart in the correct place.

3 sides	round	4 equal sides	2 angled sides
4 angled sides	2 long, 2 short sides		
0 vertices	3 vertices	4 vertices	4 vertices
4 vertices	4 vertices		

I hope you find this activity helpful with your students. The purpose is to help the students determine the defining attributes of each shape. This could be used as assessment, center activity, or just a practice worksheet.

Thanks to the following for the fonts and frame.
